

TRUNK-MOUNTED BICYCLE CARRIER

Rhode Gear

SUPER CYCLE SHUTTLE

Break away in style with the ultimate bicycle carrier.

Independent shock cords help secure the bicycles.

Ratcheting Hub System allows for a custom fit.

Neoprene foam feet help protect the vehicle from nicks and scratches.

Folds virtually flat in seconds.

Foam bike separators help hold the bicycles in place while protecting their finish.

Exclusive Rhode Bend provides optimum fit while keeping bicycles further away from the vehicle.

THE PATENTED FIT ADVANTAGE

In 1986 Rhode Gear invented and patented a system that would allow a car rack to be custom fit to almost any vehicle. This is the Rhode Gear Patented Fit Advantage. Our fully adjustable hub system allows for 360° of rotation allowing the rack to conform to almost any vehicle's configuration. This patented system not only ensures the best possible fit over all other car racks, but it also allows you to mount it in seconds. The conclusion is obvious: only with Rhode Gear's Patented Fit Advantage do you get a custom fit.

Examples of various Super Cycle Shuttle configurations.
