

8MM & SUPER 8 MOVIE DIGITIZER

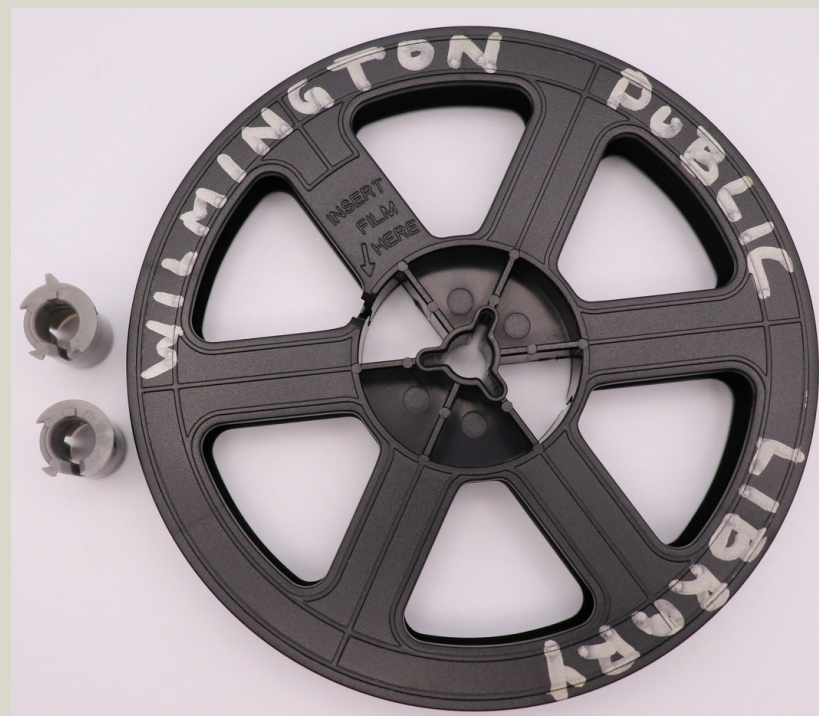

[Click here for a video tutorial](#)

Kit includes:

- Film scanner base
- Reel with 2 reel shafts
- Blower brush
- Cleaning cloth
- 32GB SD memory card
- USB Cable
- TV Cable
- Power Adapter

Easily convert those classic, 8 mm or Super 8 film home movies into MP4 format with this clever device. Temporarily store the files on the included 32GB SD memory card, or screen the videos directly to a TV or computer with the included cables.
